

Bohr Omnibus GmbH Aviation Services

- BOHR stands for bus rental and travel throughout Europe since 1986.
- Bohr Omnibus GmbH is a team of professionals with extensive experience in crew transport, diversion handling, layover service, ground transportation and event logistics.
- Employing more than 200 full-time colleagues within Germany we are supported by our partners around the world to provide excellent service.

BOHR

Bohr Omnibus GmbH Aviation Services

We provide all our services **24/7**.

- Crew transports with vehicles adapted to the size of the group – from minivans up to coaches - a company that stays in touch with your operation.
- Diversion handling for individual passengers up to large groups
- Layover service - we organize hotel rooms and transport for your passengers and crews.
- Everything available with one phone call

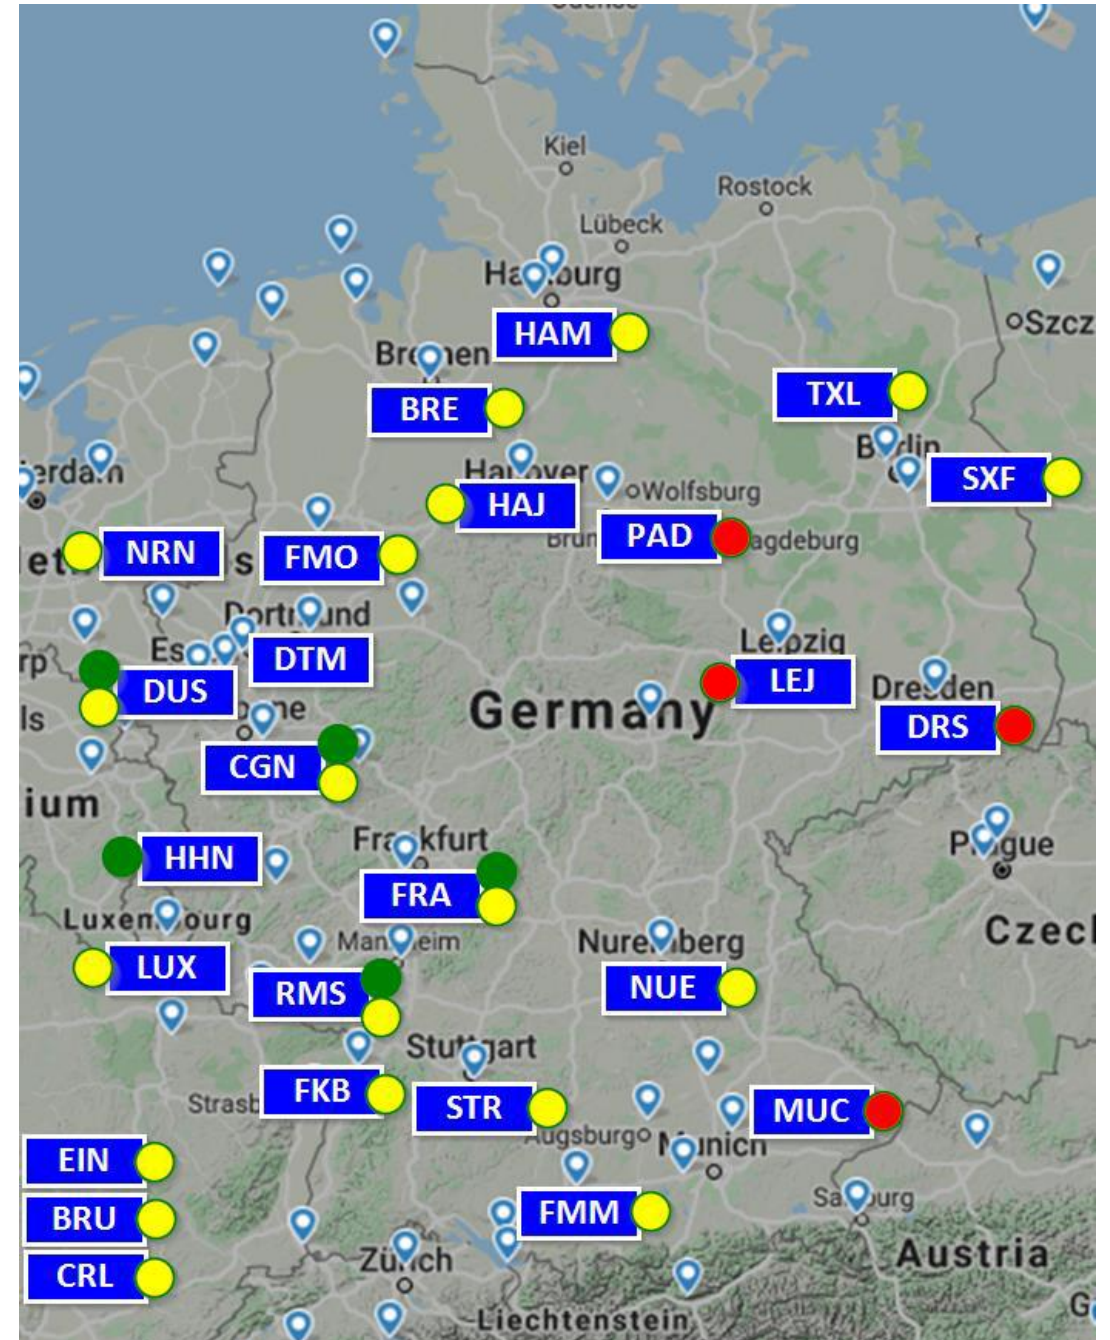

Bohr Omnibus GmbH Aviation Services

We are based at all major airports within Germany and the Benelux with

- own offices
- contractual partners
- non-contractual partners

If quick action is required, we can provide solutions to your challenges within a very short time.

Bohr Omnibus GmbH Aviation Services

When it comes to a disruption in passenger handling, we understand the incredible importance of a rapid and excellent response to ensure a positive customer experience to protect the airline's reputation.

Our long-standing customers can certainly confirm this.

Bohr Omnibus GmbH Aviation Services

We work with all major hotel chains in Germany, with a bed capacity of more than 500,000 beds worldwide, as well as with independent hotels.

- Hotels that are familiar with the accommodation of large groups.
- Special requirements can be met at any time.
- Food & beverage service on international level

Bohr Omnibus GmbH Aviation Services

Investments in our people and new technologies over the last 35 years has enabled us to grow enormously as the following metrics show:

- Moving more than 1.5 million passengers per year
- Over 50,000 room bookings per year
- Our fleet currently consists of more than 200 vehicles, none older than 3 years, with the latest technology and 200 drivers.
- All vehicles are GPS tracked
