START YOUR TRAVEL EXPERIENCE WITH US - ON THE ROAD WITH BOHR

Travel in large groups is still possible! You can use all seats in the bus, but you have to wear a mouth-and-nose-protection during the entire journey. Help us to contain the virus furthermore effectively. To provide you our usual service, we would like to inform you about our hygiene measures for future bus trips.

Washing/disinfecting hands

Please wash or disinfect your hands each time before entering the bus.

Compulsory masks and safety distance

Please wear a self-brought medical face mask (surgical mask) or a mask of the standards KN95/N95 or FFP2 during the entire journey and observe the necessary distances when getting in and out.

Breaks

To ventilate the bus and to visit the toilets sufficient breaks are made.

Drinks

Drinks are only served by wearing gloves and mouth-nose-protection from the driver/guide.

Luggage and seat assignment

Luggage is loaded and unloaded exclusively by the driver to and of the baggage compartment. You have your personal seat - you aren't allowed to use another seat during the entire trip, which only ends by arriving at the destination.

Bus cleaning

After each journey the usual final cleaning will be carried out in future even more intensively.

Ventilation in the bus

Our buses are equipped with the latest air conditioning systems with powerful filters and direct fresh air supply, which regularly exchange the air completely.

On-board toilet

Due to hygienically reasons, the on-board toilet has to remain unfortunately closed. However, we are taking enough breaks.

Diseases

If you show symptoms of a respiratory disease at the start of the journey, you are unfortunately excluded from transportation. If the symptoms occur while driving, you will be separated from other people and you have to abort the trip as soon as possible. In particular, any contact with other people has to be avoided and a minimum distance of 1.50 meters has to be preserved to other people.

#togetherwearestrong

Data collection

In order to ensure the traceability of possible chains of infection, you as the client are obliged to record name, address and telephone number of all passengers as well as the period of the stay on the bus (date, start and end time) and to keep these data for four weeks. The data has to be secured against access by unauthorized persons and has to be completely destroyed after four weeks. Digital data acquisition is also possible under the provisions of data protection law. Upon request, these data have to be provided to the coach company. It would be kept for a maximum of four weeks and destroyed afterwards. Passengers who do not agree with the data collection have to be excluded from the transportation. The data have to be made available free of charge to the competent authority upon request.
